

Appeal - Nature Reserves Preservation Group of Kalamunda

Type of appeal	Report of Environmental Protection Authority (EPA)
Proposal	City of Gosnells Town Planning Scheme 6, Amendments 166 and 169
Report number	1757

What are your concerns?

The Nature Reserves Preservation Group of Kalamunda is very pleased to see the environmental, scientific and strategic assessment by the EPA of the proposed 'City of Gosnells MKSEA 2' that would otherwise significantly & detrimentally impact the Greater Brixton Street Wetlands. We strongly support the EPA's recommendation that the rezoning of 257ha in Kenwick should not proceed.

In the face of Climate Change and the threat it poses for 'ecological collapse', we must provide every protection possible to help improve resiliency of our natural systems, and this is one of those instances.

We also support the "acquisition and expansion within the GBSW and its buffers".

We appeal for conditions to be strengthened.

We call for the incorporation a "Yule Brook Regional Park, listing as RAMSAR Wetland and listing as a WORLD HERITAGE AREA.
